

Wilo Star S 33 FC

\$358.25 USD

SKU: 4190420

Wilo Star circulator pumps are whisper quiet closed rotor circulators with selectable 3 speed operation. The cast iron body makes these pumps suitable for closed loop hydronic heating, cooling, geothermal and distribution systems. The check valve comes separately from the pump body. Wilo Star pumps are compatible with flange kits from major competitors and most 3rd party flanges.
