

Taco 120V Low Water Cutoff, 3/4" NPT Probe, Manual Reset, Foam Compensating

\$315.07 USD

SKU: LFM1203S-1

The Taco LWCO provides reliable protection for all types of boilers, from small residential hot water boilers to large industrial steam boilers. The boiler's minimum safe operating water level is specified by each manufacturer. Should the water level dip below that specified level, heat will accumulate quickly causing significant damage to the boiler and a potential external safety hazard.
