

4" Heavy Pattern MJ or No Hub Coupling

\$26.82 USD

SKU: 4MJCOUPHD

Shielded Mechanical joint (MJ) or no hub couplings connect Cast Iron hubless soil pipe and fittings in sanitary and drain waste and vent (DWV) applications. For non-pressure, gravity flow applications only. Recommended for above and underground installations. Easy to install and reuse. Heavy pattern MJ couplings have bands along the entire length to combat "Hydraulic Jump", pressure surges or unstable soil conditions, and provide a more rigid connection with more surface contact between coupling and pipe.
