

Condensate Neutralizer

AXIOM

LipHter⁺ Media

- Neutralizing media for residential and light commercial condensing appliances
- Maximizes surface area with dense pellet shape
- Pellet design ensures that condensate fluid maximizes contact time with media
- Manufactured using High-Quality Magnesium Oxide
- Safe to Handle
- Virtually dust-free
- Proven champion at neutralizing acidic condensate

Featuring: **LipHter⁺**

Condensate Neutralizer Model Numbers	Exact Replacement Part #	Bulk Media Part #
NC-1, NC-1S, NC-1W	NM-1 x Qty 1	NM-1Bulk (15 Refills)
NT1-P	NM-1P x Qty 1	NM-1Bulk (10 Refills)
NC-2, NC-2S	NM-1 x Qty 2	NM-1Bulk (7 Refills)

Condensate formed during the combustion process in gas-fueled condensing heat exchangers is acidic and can harm the environment and sewer system. Axiom's condensate neutralizing media neutralizes the pH of that acidic fluid to a more neutral level. Neutralizing acidic condensate helps protect the environment and helps avoid costly damage to septic or sewer systems.
