

Mainline Top-Check Wireless Alarm System

MONITOR & PROTECT YOUR HOME WITH THE MAINLINE TOP-CHECK ALARM SYSTEM

Model: ML-TCALARM (includes siren & sensor)

WIRELESS CONNECTIVITY: Alarm sensor wirelessly connects with long-range allowing for placement of siren anywhere within the building

CONSTANT MONITORING: Alarm monitors the valve even during power outages using its built-in backup battery

SIMPLE SETUP: The wireless system easily installs onto your existing valve, so there's no need for complicated wiring or costly upgrades

INSTANT ALERTS: If a backup is detected within the valve, the alarm will instantly sound notifying occupants of the building

ACCESSORIES: Water leak sensor is also compatible with this system, which can be placed near floor drains, sinks, toilets, HWT, etc. to instantly detect leaks and sound alarm.
